Re: The Narragansett Electric Company's Notice of Intent Application for the L190 115 kV Transmission Line Asset Condition Refurbishment Project (East Greenwich, North Kingstown, Exeter, and South Kingstown, RI)

Dear Mr. Watson:

Pursuant to Section 42-98-8 of the General Laws of the State of Rhode Island ("Energy Facility Siting Act") and Section 1.6 (f) of the Rules of Practice and Procedure of the Energy Facility Siting Board ("Rules"), I hereby notify you that the Notice of Intent Application for the asset condition refurbishment of the L190 115 kV transmission line, as described in the application filed with the Energy Facility Siting Board ("EFSB") by the Narragansett Electric Company on June 17, 2022, is docketed as of June 22, 2022 and assigned Docket Number SB-2022-03. This letter shall constitute written notice of the docketing date.

As required by Rule 1.6 (h), the EFSB will hold public hearings in or around East Greenwich, North Kingstown, Exeter, and South Kingstown. Subsequent to those hearings, the EFSB will determine "whether the project may result in a significant impact on the environment or the public health, safety and welfare," thereby requiring full EFSB review.

Should you have any questions, please do not hesitate to call me at 401-780-2173.

Sincerely,

Emma Rodvien
Energy Facility Siting Board Coordinator
